

Substance Abuse Program Specializing in Co-occurring Disorders

Substance Abuse Questionnaire* :

1. Have you felt you ought to cut down on your drinking or drug use?
2. Have people annoyed you by criticizing your drinking or drug use?
3. Have you felt bad or guilty about your drinking or drug use?
4. Have you ever had a drink or used drugs first thing in the morning to steady your nerves or to get rid of a hangover (eye-opener)?

If you answered yes to two or more of these questions, call to schedule a free, confidential substance abuse screening.

Call (785) 270-4600 and request a substance abuse counselor. Help is available.

Behavioral Health Services at Stormont-Vail West provides the highest level of behavioral health services in northeast Kansas.

Behavioral Health Services at
Stormont-Vail
West

The Substance Abuse program at Stormont-Vail West is designed to treat adults suffering from substance abuse, and if needed, address contributing issues such as depression, anxiety or other co-occurring disorders. The program uses the motivational enhancement model of treatment and cognitive behavioral therapy, thus encouraging patients to explore their substance use history, draw conclusions about consequences, and the desire and need for treatment.
