

Summer Research Institute

- June 16, 17, 23 and 24, 2010
- 9 a.m. to 4 p.m.
- Pozez Education Center
Humphreys Classroom
- 24 Contact Hours
- Fee \$240

Presenter

Ruth Ohm, PhD, RN

Associate Professor, Baker

University School of Nursing

Overview

The institute offers a comprehensive overview of essential topics in nursing research in order to enhance the nurse's ability to critically read and evaluate research studies. It is intended for nurses who have never had a research class but wish they did; for those who did, but at the time wished they didn't; and for those who have an interest in nursing research and evidence-based practice, and would like to gain confidence in critically

evaluating the evidence.

Registration

Pre-register by **June 4, 2010**. Class space is limited. Call (785) 354-5831 or register online at www.stormontvail.org. SVHC employees can register online through HealthStream Learning Center (HLC).

Topics

- Day One** • Introduction to nursing research overview: qualitative vs. quantitative studies, research and clinical questions.
- Day Two** • Sampling, design and survey development.
- Day Three** • Reliability and validity, data analysis: descriptive statistics and Inferential statistics.
- Day Four** • Interpreting research findings, critiquing quantitative studies
