Cotton-O'Neil
Diabetes and
Endocrinology
Research Center
(785) 368-0760

- Are you between the age of 30 and 75?
- Do you have Type 2 diabetes?
- Are you currently being treated with Lantus (Insulin Glargine) in combination with one or two oral diabetes medications?
- Are you looking for a new way to treat your diabetes?

If you answered yes to all of these questions, call us. We are studying new diabetes treatments to determine if they control your diabetes more effectively than your current treatment plan.

All study-related care is provided at no cost to qualified participants including physical examinations, glucose meters and supplies, study medications and laboratory tests.
