

RE: General Election 2020

Dear Patient,

If you are a registered voter in Shawnee County and want to vote in the General Election on Tuesday, we want to make sure you have the ability to do so while under our care. Due to voting regulations, there are a few steps we must follow to ensure your vote is counted.

If you are a **registered voter in Shawnee County** and want to vote on Tuesday, October 3rd, and do not think you will be discharged in time to do so, please call Patient Experience at extension 2-6277 **by 8:00 a.m. Tuesday morning.**

If you have an advanced ballot already but are unable to access it at this time, please let the team member know during your call so they can complete an Affidavit of Assistance (AV5) form and bring you an application to fill out to receive a replacement ballot.

Everyone will be required to furnish ONE (1) of the following identifications in order to complete the advance voting ballot:

- (1) Kansas Driver's License (number only) or
- (2) Kansas State Identification Card (number only)

If you have not received a ballot previous to your admission at Stormont Vail, a ballot will be brought to you after your call by a team member. They will pick up your completed ballot before end of day and bring to the election office.

For those filling out an application for a replacement ballot, please let a team member know when the application is complete and patient services will come collect the application, take to the election office and return with your replacement ballot. When you have completed your replacement ballot it will be picked up by a team member and returned to the election office.

If you are discharged before you have received or completed a ballot, please call the Patient Experience office at (785) 354-6277 before leaving the building. We will arrange a time for you to obtain your requested ballot.

Finally, if you know you will be discharged with time to visit an election office in person, please vote on your way home.

For questions or concerns regarding these regulations, please call our Patient Experience office at (785) 354-6277.

Thank you,

Patient Experience
