

# Stormont Vail Health

## EMPORIA CAMPUS

In 1994, Stormont Vail expanded into Emporia with an investment in Emporia Primary Care practices, now Cotton O'Neil Emporia Clinic. Since then, we have grown to 17 providers in pediatrics, family medicine, internal medicine and 8 different medical specialties. In addition, we have expanded ancillary services through medical imaging and lab services.

Keep care local.

Improve the health of the community.

Drive economic vitality.

### Stormont Vail at Newman Medical Plaza

3 different floors

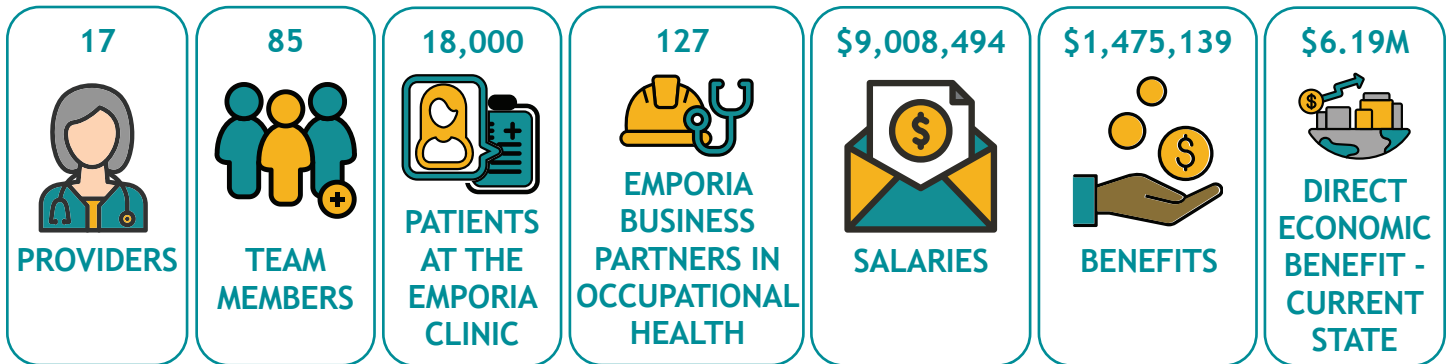

26,315 square feet

\$385,000 yearly lease

- Imaging
  - Diagnostics
  - Mammography
- Lab
- OB/GYN
- Occupational Health
- Pediatrics
- Primary Care
- Specialty Outreach Clinics
  - Allergy, Asthma & Immunology
  - Behavioral Health
  - Cardiovascular Services  
Heart Failure, Electrophysiology & General Cardiology
  - Endocrinology
  - Nephrology
  - Orthopedics

The current space occupied by the Cotton O'Neil team is inadequate to meet the growing demand of services and care our patients need. We recognize that additional space is necessary to accommodate new healthcare providers and advanced technologies to enhance the quality of care we provide.

### Community Benefit

### About Stormont Vail Health

Stormont Vail Health is the premier independent, not-for-profit regional health system serving Eastern and Central Kansas communities caring for 280,000 unique patients annually. Our mission is to work collaboratively to improve the health of the communities we serve. Based in Topeka, KS, we are governed by a diverse and local board of directors who represent the communities in our region. Stormont Vail Topeka Hospital is a licensed 586-bed tertiary care facility, with the region's only Level III NICU and Level II Trauma Center. We are a member of the Mayo Clinic Care Network, allowing our medical staff access to their colleagues within Mayo Clinic for eConsults and clinical collaboration. In addition, we pride ourselves on being recognized four times as a Magnet organization by the American Nurses Credentialing Center. The foundation of our health system is our physician leadership and the Cotton O'Neil medical group. Today, Cotton O'Neil Clinic is one of the largest and most reputable, multi-specialty medical groups in Kansas, with over 500 employed providers delivering exceptional care at Stormont Vail Hospitals in both Topeka and Junction City plus 28 ambulatory locations. We have a practice footprint across the region in Topeka, Manhattan, Emporia, Junction City and several rural communities. In addition, we serve many communities through our almost 90 outreach clinics in 18 different specialties.
